Hello! I am a beginner Python developer, carried away by the development of web applications and automation of tasks. I actively study Python, Flask, the basics of databases and Git. I strive to apply the acquired knowledge to solve real problems and make a contribution to the team.			

About me

Hello! I am a beginner Python developer, carried away by the development of web applications and automation of tasks. I actively study Python, Flask, the basics of databases and Git. I strive to apply the acquired knowledge to solve real problems and make a contribution to the team.

My skills

- Python (basics)
- Flask (creation of simple web applications)
- Html, css (basic understanding)
- Sqlite (working with databases)
- Git (code versioning)
- Web scrapping (data collection using BeautifulSoup)

Experience (projects)

Here are personal projects, educational work or internships.

Project 1: [password generator on Python]

password generator on Python

- Used technologies:
 1. ■ Back end: * python, flask
 2. ■ Password generation: * modules `random` and `string` from the standard Python library.
 3. ■ Fronth end: * html, CSS, javaScript (uses FETCH API to interact with a backend).

Project 2: [docsify | We make a site from the usual text]

docsify | We make a site from the usual text

- Used technologies:
 1. *Frontend*: HTML, CSS, JavaScript, Markdown
- [Contrust on GitHub](#)

Higher education

Samara Institute of Railway Engineers

- Higher
- End year: 2000
- Faculty: Electro-mechanical
- Direction/specialty: locomotives
- Specialization: "Management of the technical operation of locomotives"

Additional education

- Git + GitHub. Full course <https://stepik.org/cert/3011381>
- Machine learning <https://stepik.org/cert/2973133>
- Applications and services for teachers <https://stepik.org/cert/2969710>
- SQL Start <https://stepik.org/cert/2964507>
- Virtual reality technologies <https://stepik.org/cert/2951000>
- Introduction to Linux <https://stepik.org/cert/2948530>
- Docsify | We make a site from the usual text <https://stepik.org/cert/2928132>
- Indie course by html and css <https://stepik.org/cert/2926316>
- Data marathon: first acquaintance with SQL and Python
<https://stepik.org/cert/2922209>
- Security on the Internet <https://stepik.org/cert/2915607>
- Fundamentals of the theory of information <https://stepik.org/cert/2907800>
- Fundamentals of construction design Free <https://stepik.org/cert/2890456>
- All about cryptocurrencies (BTC, ETH, DOGE, NFT) <https://stepik.org/cert/2890316>
- Good, kind Python with Sergey Balakirev <https://stepik.org/cert/2878697>
- "Generation Python": Course for advanced <https://stepik.org/cert/2793177>
- "Generation Python": course for beginners <https://stepik.org/cert/2608952>
- Introduction to the architecture of computers. Elements of operating systems.
<https://stepik.org/cert/2190734>
